PHILADELPHIA HOUSING RESOURCE GUIDE

This guide is published by the AIDS Library of Philadelphia FIGHT, based on the organizations in the *2016 Greater Philadelphia AIDS Resource Guide*. These resources include, but are not limited to, resources for people living with HIV. This is not a comprehensive housing resource list. Inclusion in this guide is not an endorsement of services. INTRODUCTION

Everybody needs and deserves housing, but not everybody has it. Stable housing has been proven to be a part of good health. Studies show that housing is good for HIV prevention and treatment.

In Philadelphia, many temporary housing resources exist, like shelters or transitional housing. There are fewer resources for permanent housing. Many have a long waiting list.

The Philadelphia Housing Resource Guide contains housing intake points in Philadelphia. This is not a comprehensive list of all housing facilities. Many of these resources come from the research we've done at the AIDS Library to answer questions from our patrons. We learned about some facilities because library patrons have been there and told us about them.

In the following pages, you will find an A-Z listing of housing resources in Philadelphia. We list options for emergency shelter, temporary housing, transitional housing, and programs that have pathways into long term housing. Because many recovery and behavioral health programs offer short term housing, we provide information on how to access them.

This resource guide has a focus on emergency and transitional housing, and we have included resources for people who are homeless. In addition to the places that offer housing, we have also included organizations that assist individuals and families in paying for their utilities and weatherization, offer financial assistance, subsidize housing, and provide medical care.

If you are looking for a specific type of housing resource, please consult the index on pages 29-31.

The Housing Resource Guide is available at www.aidslibrary.org as a searchable database and as a downloadable PDF file for printing.

How Do I Access Emergency Housing?

The Office of Supportive Housing (OSH) provides intake centers that place individuals and households in short-term beds. Once someone is placed, OSH can make referrals to transitional and permanent supportive residences. At many of these places you can walk in, but identification is often required.

Another option for accessing emergency housing is calling the **Project HOME Street Outreach Hotline** at 215-232-1984. They will work with you to find the most appropriate housing placement.

What are Suggestions for What to Bring to a Shelter?

- Key lock or combo lock
- Shower shoes
- Pillow cover and mattress cover
- Hygiene kit
- Hand/surface sanitizer
- Anti-bacterial spray
- Toilet tissue
- A blanket or sleeping bag
- Laundry bag
- A couple sets of clothes

Do I Need Identification to Access Emergency Housing?

For many shelters, you will need identification to access services. Many people lack identification, which can make it difficult for them to access housing. There are a few organizations in Philadelphia that help people access identification. The Homeless Advocacy Project (page 16) and Adam in the Parkway (page 8) are two organizations that help people get IDs.

What is the Process for Getting Long-Term Housing?

In most cases, accessing long-term housing requires individuals and families to start out in emergency housing. Emergency shelters and OSH intake locations are often the access points for stable housing. Many housing resources require a referral either from the Office of Supportive Housing, the Office of Addiction Services, Community Behavioral Health, case managers, or medical providers.

What are Crisis Response Centers?

There are 5 crisis response centers (CRCs) in Philadelphia, and they provide substance use or mental health crisis care in hospital settings for a very short time. They can provide detox and referrals for longer term inpatient stays. Detox is a medical intervention for ending drug or alcohol use. Once admitted, ask for referrals to inpatient or recovery housing, because detox itself is not a housing plan. It can, however, be a link to more stable housing options.

What Do I Do if My Utilities Get Shut Off or are About to Get Shutoff?

Some organizations will help people pay their utility bill to prevent shutoffs. In the index of this booklet, look to the utilities and weatherization section to see the programs that support with emergency shutoff relief and the organizations that can prevent that from happening.

Where Can I Go for Help if I Have Questions?

In this guide, there are a variety of organizations that offer housing referrals. You can also visit or call someone at the AIDS Library.

HOUSING OPTIONS FOR PEOPLE LIVING WITH HIV/AIDS

In Philadelphia, housing for people living with HIV/AIDS is handled through the Housing Services Program (HSP) of the AIDS Activities Coordinating Office (AACO). HSP is federally funded and provides permanent subsidized housing for qualified low-income people living with HIV/AIDS and their families.

To complete the application and access HSP, you will need:

- An HIV case manager (If you need an HIV case manager, call AACO's Helpline at 800-985-2437)
- A medical provider you see regularly
- Photo ID for all adults/birth certificates for all children
- Proof of income for everyone
- If you have substance use issues or a mental health condition, you must be in treatment and provide proof.

AACO's Housing Service Program does not provide emergency housing. See page 4 for the emergency housing intakes.

Questions and completed applications go to:
AACO Housing Services Program (HSP)
Address: c/o Client Services Unit
PO Box 1102, Philadelphia, PA 19105
Phone: 215-685-5383
Fax: 215-685-5388

There is a waiting list for this housing program. This means the sooner you apply, the better. However, the waiting list is not "first come, first served." Applicants are prioritized according to the following criteria:

Priority Level 1: Those who are homeless or in a domestic violence situation. The anticipated wait time for Priority Level 1 applicants is one year or longer.

Priority Level 2: Those contributing more than 50% of their income to rent, those living in uninhabitable conditions (per Licenses & Inspections), those on probation or parole, and those with minors under the age of 12. The anticipated wait time for Priority Level 2 applicants is six years or longer.

Priority Level 3: All other low-income applicants living with HIV who do not meet the above criteria. The anticipated wait time for Priority Level 3 is six years or longer.

Please note that waiting times are subject to change.

Applicants must meet income, medical, residential, and utility eligibility requirements:

Income Eligibility: The household of the applicant must meet HUD income guidelines, available upon request. Applicants must provide proof of income for all household members, including children.

Medical Eligibility: The applicant must have CDC-defined AIDS diagnosis, or meet the Social Security Administration requirements for disability due to HIV. The medical information form must be fully completed by a medical provider within the last 6 months.

Residential Eligibility: Applicant must reside within Bucks, Chester, Delaware, Montgomery, or Philadelphia counties. Proof of residency (current lease, letter from a homeless shelter, “proof of homeless statement” from a medical case manager, or a Tenant Proof of Residence form) must be submitted.

Utilities Eligibility: Applicants must be able to have utilities (electricity and gas) in their own name at the time of referral placement, excluding applicants who are minors.

Ineligibility: Homeowners, those already receiving a housing subsidy. Individuals actively using drugs or alcohol are ineligible to access HSP unless they are in an active treatment program.

Incomplete Applications: Incomplete applications will be kept on file for 30 days after receipt. If the missing documentation is not received in 30 days, the application will be closed and a new application must be submitted.

Completed Applications: Once your application has been reviewed and approved by AACO HSP, you will be informed in writing, and you will be placed on the AACO housing waitlist.

DEFA Grants

Another housing option is the **DEFA (Direct Emergency Financial Assistance)** grant. DEFA grants are administered through AACO and the Public Health Management Corporation (PHMC). DEFA is an emergency financial resource for people living with HIV/AIDS in Bucks, Chester, Delaware, Montgomery, and Philadelphia counties. The fund is to assist people living with HIV/AIDS in emergency situations. This grant can be used to help people who are experiencing or about to experience homelessness, utility shutoffs, access to medications and other resources. Ask your case manager for help applying for a DEFA grant.
